

Sample Homework Submission

Student: Aarav Sharma

Session ID: session_sample_01

Status: Completed and submitted on time

Topics covered: fractions, multiplication, division, and word problems.

1. Fractions

One half plus one quarter equals three quarters.

$$1/2 + 1/4 = 3/4$$

2. Multiplication

$7 \times 6 = 42$. Multiplication means repeated addition.

3. Division

$24 \div 6 = 4$. Division means sharing into equal groups.

4. Word Problem

Riya has 12 pencils and shares them equally with 3 friends.

Each friend gets 4 pencils.

Teacher note: Good effort. Needs a little more practice with word problems.

All answers completed. Score: 8/10.
